EXAMINER'S AMENDMENT

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eric Jensen (Reg. No. 37,855) on November 17, 2005.

The application has been amended as follows:

IN THE CLAIMS:

Claim 13 is canceled.

Claim 1 is amended to read:

1. (currently amended) A method for applying a coating solution on a web, comprising:

using a die which has a slot formed between a first lip and a second lip for discharging said coating solution on said web, said first lip being disposed downstream from said second lip in a feeding direction of said web;

providing a regulation member for regulating a coating width of said coating solution;

disposing said die such that a first gap between said first lip and said web is ~~may be~~ smaller than a second gap between said second lip and said web;

setting a third gap between said regulation member and said web so as to be more than said first gap and less than said second gap;
and applying the coating solution through the slot and onto a surface of the web.

2. This amendment clarifies that the gaps between the first lip and the web and the second lip and the web are as described. The amendment also places the coating step of claim 13 in independent claim 1 so that positive recitation of the applying of the preamble is provided.
